## Introduction

This document is used to provide overview and tracking of the flight logs available to the author of this web site. In general, I am happy to trade and exchange logs – preferably in electronic format. Flight logs – amongst other first-hand accounts like letters or interviews – provide for a primary source that has not been obstructed by time and tell-tale. As such, preserving and providing them is a vital part of keeping sources available publicly.

Some of the logs, however, I have been provided “in confidence” and with the clear request to not exchange the copies I have received. Of course, I will honor my promise but I may still be able to provide specific information if requested. Don’t be shy to ask, don’t be upset when I tell you that a specific log is “locked”.

I also need to make a comment on the Unit Summary information: this is the best I could do. Given the number of logs (currently 329) I sometimes have to rely on the information provided by the log source. Others, I have looked up in literature, especially for the members of the Jagdgeschwader, the *Jägerblatt* / *Fliegerblatt* is a great source for information. Finally, the list of units is representing the known (post-training) units the log owner has served with – not the units covered in the surviving log. Finally: if I am wrong (and I know I am!) I am happy to make corrections if you let me know.

## List of Flight Logs I am interested in

I am always happy to trade and exchange – and while any Luftwaffe Flight Log is valuable, I am searching for some more or less specific ones, based upon current needs and interest:

- Any **Flight Log of Kampfgeschwader Pilots** or crew member (Leistungsbuch), with specific interest in logs of **Kampfgeschwader 100**, and **Kampfgeschwader 26**.
- Any **Flight Log of fighter pilots** involved in the “Defence of the Reich” – the countering of the USAAF Strategic Bombing campaign.
- Any **Flight Log of Luftwaffe Operations**, especially **JG 27** and **JG 77**, in North Africa.

In particular, I am looking for the following logs of these specific pilots:

Pilot	Unit(s)	Timeframe	Comments
<b>Brodt, Johannes</b>	KG 200	Complete, with specific interest on the end of 1944 and into February 1945.	Flight log is not listed with “Flugbuchsammlung Boelcke” or <a href="http://www.blitzgeschwader.de">www.blitzgeschwader.de</a> but two pages have occurred on the <a href="#">Internet</a> .
<b>Mangold, Egon</b>	4./NJG 100	Complete, with particular interest on the time of September 1944 to May 1945.	

## List of Flight Logs known to exist

Flight Log information shows up in various places – references in literature, eBay, etc. I have been provided a list of logs that “are known to exist” with a big batch of copies – and I have intentions to track those and add to that list the information of any log I learn to have survived. If anyone can offer copies of the listed logs, I am happy to exchange and trade (except for those locked logs of mine).
